Highlights

Globelink IT Capabilities

In Globelink, we are committed to connect the world using technology & adopting IT strategies that align business needs. IT plays a very important role in the business world today where speed and accuracy are of the essence.

We are constantly looking into enhancing current systems and developing new tools, and reviewing our online processes which will make a positive difference in terms of quality and productivity for our customers.

Globelink provides various in-house tools which are designed to bring the most efficient and timely services to our customers:

Track & Trace

- Provides shipment visibility by Booking Reference Number, BL Number or Customer Unique Reference Number anytime / anywhere 24 x 7
- Provides real time status and history of shipments down to per cargo detail level - from booking to cargo release (10 key milestones)
- Enhances communication as shipment statuses are available on-line
- Enables download of key documents via PDF format
- Ability to download shipment status via Excel spreadsheet format

e-Schedule

- Provides sailing schedule visibility anytime / anywhere 24 x 7
- Provides CFS Closing, Transit Time, Frequency and Sail Date, Departure/Arrival details for shipment planning
- Enables download of sailing schedules via Excel spreadsheet format

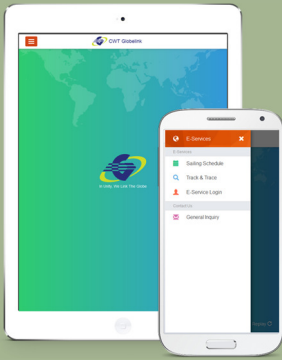

e-Booking & e-Shipping Instruction

- Enables booking of shipments anytime / anywhere 24 x 7
- Provides real time booking acknowledgement via email with unique Booking Reference Number for Track and Trace purpose
- Enhances productivity as bookings are executed on-line

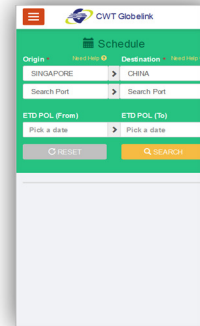

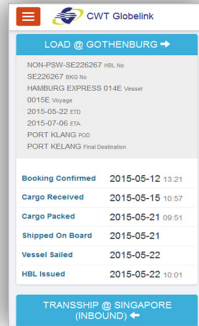

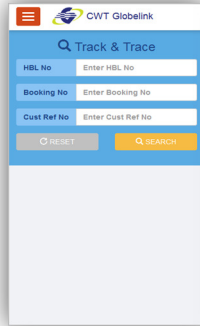

Global Account Tariff (GAT)

- Easy online access to centrally filed tariffs

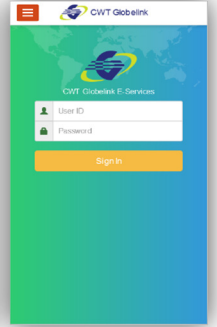

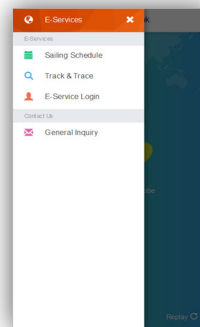

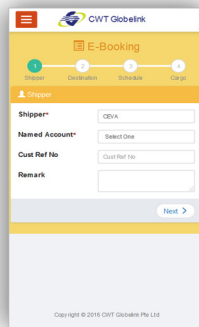

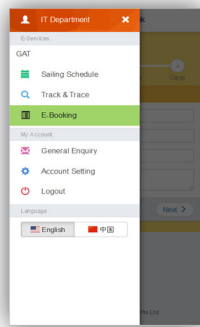

With the increasing popularity of using smartphones and tablets to stay connected on the go, we have also introduced our mobile applications beginning of last year. This allows our customers to access information at anytime and anywhere as long as they have an internet connection.
