We are ISO 9001:2015 Accredited!

CWT Globelink is delighted to announce its accreditation for ISO9001:2015. Our transition to ISO 9001:2015 from the previous version (ISO 9001:2008) aims to align our business strategy with the new standards to meet the needs of today's business world.

ISO standards are reviewed on a regular basis and revised when needed in order to remain relevant to the constantly-changing society. The new standard structure is designed to adapt to changing environments and be compatible with other management systems.

Some of the key benefits delivered are:

- **Achieve international quality recognition**

As an internationally recognized standard, the ISO 9001 has become the basis for creating a quality management system around the world.

- **Improve efficiency & productivity**

Ensure current processes are aligned with organization strategy to achieve sustainable performance improvements and increase the quality of products and services in a cost effective way.

- **Increase engagement of employees & customer satisfaction**

Employees' involvement in the improvement of processes may result in higher levels of innovation and productivity to meet customers' requirements.

- **Improve process integration of management systems**

It is easier to implement multiple management systems, reducing redundancy and in turn boosting productiveness.

- **Continuous improvement within organization**

The continual efforts to improve work processes promote efficiencies and cost savings, helping the organization to achieve excellence through improved business performance.

This certification demonstrates our commitment to quality in providing effective management of internal processes to meet international quality requirements and provide the service that meets customers' needs and satisfaction.

Country Focus – United Kingdom

Globelink Fallow is ISO9001 approved and offers wholesale international shipping services to the United Kingdom shipping industry.

The emphasis has always been on 'Service' and the company aims to employ experienced staff on all of its export departments and is constantly striving to maintain the high standards that have been set since the company's foundation in 1989.

Globelink Fallow is committed to providing our customers with efficient and cost-effective shipping solutions in a global market of trade.

One of our main strengths is the speed and accuracy of the shipping documents we produce for each shipment, which in turn enables our clients to pass the same high quality service to their UK exporters and overseas agents.

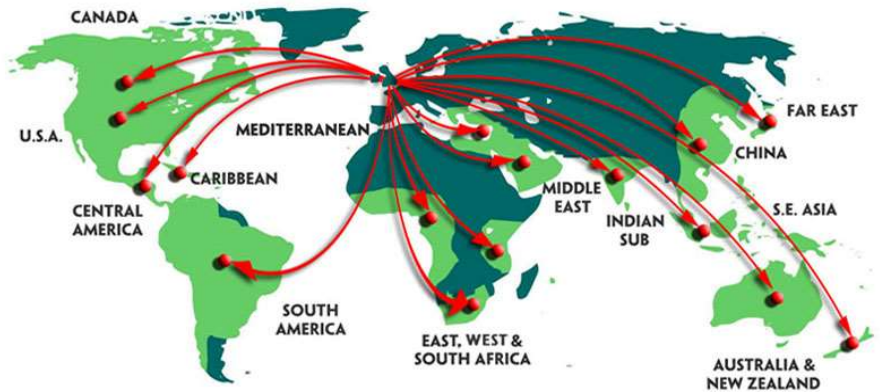

Depot locations across the UK

Being part of the Globelink network enables us to have complete global coverage along with excellent levels of control and communications. We offer 39 direct export services and 32 direct import services.

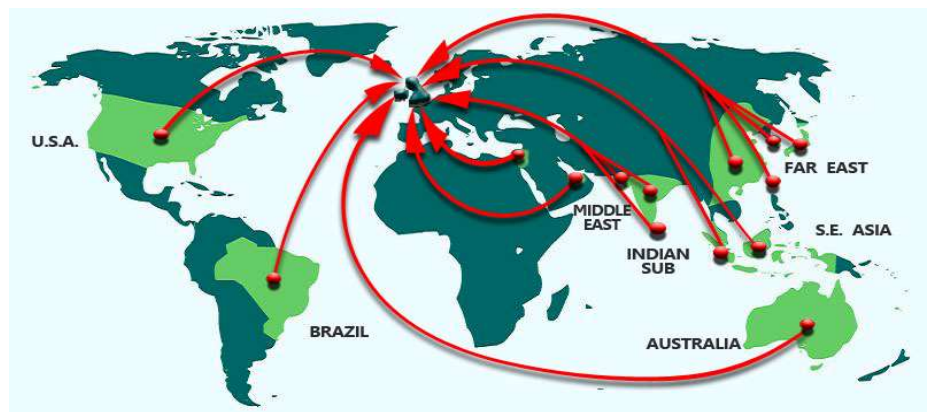

EXPORT LCL ROUTES

IMPORT LCL ROUTES
