CWT Globelink Group

Annual Conference 2013: Spain

CWT Globelink Group Annual Conference 2013 was hosted in Sitges, a lovely coastal town approximately 35km southwest of Barcelona, Spain. Besides its famous beaches, nightspots and historical sites, Sitges is also renowned for its Film Festival and Carnival.

This year's conference saw one of the largest turnouts with a total of more than 170 delegates in attendance. Other than the usual line up of meetings and discussions, there were many social opportunities for everyone to network and strengthen relationships.

2013 is a special year as our conference is held in conjunction with the 70th birthday celebration of Mr. Joaquim Pueyo, Managing Director of Globelink Spain, a long-time friend to many in the business.

The 5-days conference came to a close with a gala dinner and birthday celebration for Mr. Pueyo at the Codorníu Winery with a magnificent Opera performance to set the mood for the night's entertainment.

Special thanks to our main coordinators of the Spain conference – Andrew and Jane and also the great support provided by Globelink Spain. A big thank you to all who have contributed in one way or another in making the event a success. To all delegates, see you in 2014!

Fiata World Congress 2013: Singapore

Fiata World Congress 2013 was hosted in Singapore at the Suntec Convention and Exhibition Centre from 15 – 19 October 2013. The theme this year is "Springboard to Asia, Connecting the World...".

CWT Globelink took this golden opportunity to showcase our business and reach out to the industry's community as part of the exhibiting companies at the congress. CWT group is the Gold sponsor of the event in Singapore.

This congress provided many opportunities to network with customers and business counterparts based in Singapore and also visiting guests from overseas.

In a nutshell, dynamic, comprehensive & far-reaching.

Understanding CWT Globelink.

SERVICE INTRODUCTION

New Direct Consolidation Service

CWT Globelink group has added a new direct consolidation service in our network.

Istanbul to Santos

- ❖ POL: Istanbul, Ambarli Port
- ❖ POD: Santos
- ❖ ETD Istanbul: Sunday
- ❖ Cut-off: Thursday
- ❖ Transit: 22 days
- ❖ Frequency: Weekly

For enquires, please contact Globelink Istanbul – Tel: +90 216 6519393 or email info@globelink-unimar.com.

NOTICES – Globelink Offices

Strike at Nhava Sheva NSICT & GTI Terminal

Shipping operations at Nhava Sheva port have been badly hit due to wage disagreements between workers and the management at Nhava Sheva International Container Terminal (NSICT), one of three independent ports in the area since 15 October 2013.

To worsen the situation, workers from the NSICT Terminal have influenced workers from the Gateway Terminals India (GTI) Terminal as well.

The "GO SLOW" Operation is affecting container movements in and out of the terminals.

NOTICES – Globelink Network Partners

General strike of domestic transportation services in Italy

A general strike of domestic transportation services in Italy has been planned from week 44. Shipments in and out of Italy will still be processed as per normal, unless otherwise advised.

INDUSTRY NEWS

North Europe's peak season still disappointing

The Asia-Europe container trades in both directions were disappointing, registering on the slightest uptick from July to August, but still slightly better than last year's lacklustre season.

Westbound cargo flows in 2013 from Asia to North Europe, covering the peak of the peak season in August at 844,000 TEU compared to 837,000 TEU in July and 793,000 TEU in June.

Figures from Container Trades Statistics (CTS) through August shows a one per cent increase in year-to-date volume to 6,183,000 TEU over last year.

Like westbound services, eastbound vessel capacity also increased, but in this case by 3.5 per cent in August to 615,400 TEU, but it fell 1.3 per cent in September to 607,100 TEU followed by another reduction of 1.4 per cent in October, down to 600,000 TEU.

Utilization differed wildly as expected. Asia-Europe routes achieved 100 per cent ship utilization in August, but it didn't last into September, when a slippage sparked a minor rate war as carriers fought to retain market share while worked to fill their ships, said London's Drewry Maritime Research.

Europe-Asia utilization was more pronounced with space on vessels sailing from Northern Europe to Asia declining from 67 per cent in July to 60 per cent in August and with September heading down, taking freight rates with it.

The International Monetary System (IMF) estimates 0.3 per cent GDP growth in Europe this year, compared to last year's 0.1 per cent last year, offering more reason to hope with its prediction of 1.4 per cent growth in 2014.

Ocean carriers' response was to increase overall westbound vessel capacity by three per cent in August, up to 844,300 TEU, managed by simply by not cancelling sailings, said Drewry analysts in London.

But sailings were cancelled in September, including three from Maersk's AE7 service, bringing total capacity down by 1.3 per cent to 834,000 TEU, which was followed by another 11 cancellations in October, reducing capacity by another 1.4 per cent to 822,000 TEU, they said.

There has been no other major westbound schedule changes, only seasonal port pair adjustments and vessel upgrades, including the deployment of Evergreen's first 13,800-TEU ship on its CEM service during September, as well as adding APL's 10,700-TEUer on G6's Loop 6, enabling slow steaming from on a roundtrip of 11 to 12 weeks.
